Fleet & Fuel Management

Managing a Fleet on the Move

BPC's SmartVista Fleet & Fuel Management lets you deliver a more attractive way for customers to manage fleets

Digital convenience is an integral part of life for consumers and businesses alike. So when it comes to fuel and fleet payment solutions, it's about more than just drivers paying for fuel. Fleet managers expect digitisation, flexibility, and transparency

There's been a shift towards next generation, digital fuel payments experiences, and it gives financial institutions an opportunity to attract corporate clients with an offering that answers their every requirement.

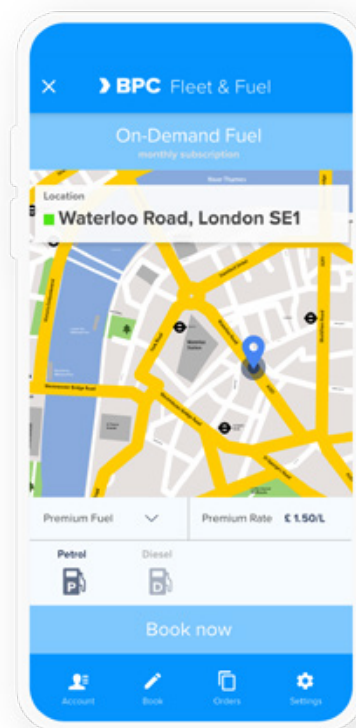

Giving your customers the seamless experience they demand

By delivering a digital user experience that gives fleet managers and their drivers the ease and flexibility that makes their jobs easier, you'll build loyalty and open up new revenue opportunities

How it works...

- The comprehensive fuel solution supports end-to-end fuel payment services, from card issuing through to payments processing and settlement.
- As a one-stop platform it includes digital front end, card management, fraud management, and loyalty.
- There are various reporting options and accounts can be set up in any currency, in volume, in loyalty points, or other ways, depending on preference.
- Card products supported include fleet cards, prepaid cards, post-paid cards, gift cards, fuel coupons, co-branded cards, overdraft cards, and more.
- The platform supports key business workflows including full VAT management, invoicing and billing, and dispute management.
- Pricing & fee management, including handling of commissions and discounts.
- Multi-level (hierarchical) reporting and risk management.
- Robust security and fraud prevention tools (including location-based fraud detection & prevention) are supported by an intelligent workflow engine.
