# Payment Hub

Future Fit Payments Orchestration

# **BPC's SmartVista Payments Hub keeps you connected and moving forward**

Payments are a crucial part of day-to-day life, and as consumers' expectations of choice and convenience rise, providers have to step up. Implementing and managing payment capabilities involves integrating and connecting multiple systems and networks, something the SmartVista Payment Hub makes easy.

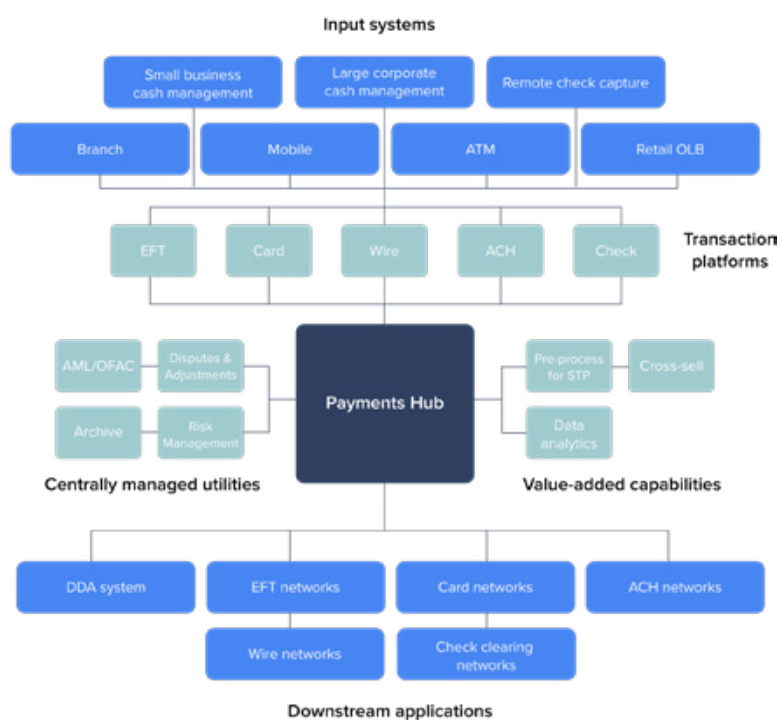

# Making payments work for you

A centralised digital hub streamlines processes, removing siloes between systems and making sure payment environments are trouble-free and conducive to driving business growth.

## How it works...

- Part of the SmartVista Suite, the hub can also be installed on top of and integrated with an existing infrastructure.
- Configuration and integration processes are flexible.
- The hub enables connections to payment networks, switches, back offices, retailers, HSMs, and more, in over 100 countries.
- Payments specific protocols and connectors used include ISO8583, ISO20022, XML, and Swift MT/MX.
- The latest technological stack is based on open standards and mature open-source software.

# Key benefits of SmartVista Payment Hub

- › Stand alone or an extension of your existing banking, payments, and cards management applications
- › Horizontal scalability and vertical volume tuning
- › Database independence
- › Built for configuration and integration
- › Industry standard approach for a payments environment
- › Point-to-point connectivity
- › Visual toolkit to easily design integrations
- › Business logic supports the building business processes in a low code manner
- › The latest payments specific protocols and connectors

## Financial institutions...

- Benefit from centrally managed utilities
- Achieve faster time to market

## Customers...

- Get a wide range of payment options
- Benefit from the latest payment specific protocols

# Power your transactions with BPC

Start benefiting from SmartVista Payment Hub alone or as part of a broader technology platform and gain the potential to make the most of every transaction with the right tools and technology. It's one thing to use technology to power your transactions; it's another to harness its full potential.

BPC's experienced team understands exactly how to bridge real life and digital, and our technology is proven, consistent, and always forward-thinking.

# About BPC

Founded in 1996, BPC has transformed over the years to deliver innovative and best in class proven solutions which fit with today's consumer lifestyle when banking, shopping or moving in both urban and rural areas, bridging real life and the digital world. With 350 customers across 100 countries globally, BPC collaborates with all ecosystem players ranging from tier one banks to neobanks, Payment Service Providers (PSPs) to large processors, ecommerce giants to start-up merchants, and government bodies to local hail riding companies. BPC's SmartVista suite comprises cutting-edge banking, commerce and mobility solutions including digital banking, ATM & switching, payments processing, card and fraud management, financial inclusion, merchant portals, transport and smart cities solutions.
